

Dear Mr. Dangeau:

Thank you for your presentation before the Mississippi River Commission during the public meeting held in Memphis, Tennessee, on August 20, 2001. In your statement you provided an update on the L'Anguille River project.

The Commission recognizes the importance of water quality of streams throughout the nation. As streams are classified and listed as "impaired waters," it is critical that local, state, and Federal organizations work together to get the most improvement possible at the least cost.

The Commission is interested in the success of your endeavors on the L'Anguille project. The Memphis District staff will work with you on this matter to the extent that authority and funding allow.

Thank you again for your presentation. The Commission appreciates receiving your views and will be pleased to hear from you at our future public meetings.

Sincerely,

Edwin J. Arnold, Jr.
Brigadier General, U.S. Army
President Designee, Mississippi
River Commission
